## Measurement Tools and List Reports

The following pages describe reports to assist you in managing the Direct Loan process at your school. You may want to develop similar reports to gather data from your custom system. The data tables show the field labels and valid field contents from EDExpress. You can create similar reports using your own field labels and field contents, using the provided tables as a guide.

## Batch Activity Measurement Tool Report

### **Description**

This report monitors the process of creating, transmitting, and importing batches. School's tolerances (or guidelines) are set for the number of days each type of batch should take to complete. When setting these tolerances, keep in mind the LOC's processing time, school procedures for exports and imports, and other specifics associated with your school's communication software/hardware configuration.

When selecting this report in EDExpress, you must enter a school code. You may also choose to enter a reporting date range, batch type to be included, the option to print only exceptions to the tolerances, and the option to print totals only. If you enter a reporting date range only the batches with a Batched/Print Date within the specified data range print on the report. (Refer to the Sample Report on page B-5.)

### **Analysis Tips**

Analysis of the report results provides assistance with identifying possible bottlenecks or inefficiencies in your current procedures. This report can be utilized as part of a Continuous Improvement evaluation performed at regular reporting intervals.

There are many variables that can affect transmitting batches to the LOC. If the Batch Activity report shows your process is performing outside of your school's tolerances, you may want to consider:

- Creating procedures for sending and receiving data from the network
- Putting procedures in place to ensure timely transmission of data
- Including steps in your procedures for export and import into your system
- Critical time batch processing
- Processing batches efficiently during periods of high volume. You may want to set the report period to evaluate your batch control during these critical processing periods
- This report could be used to identify batches that are missing acknowledgements because these batches do not have an "Import Date"

<b>Heading</b>	<b>Description</b>
School Code	Six digit School Code identifier
Batch ID	Identifies the batch created for transmission to the Loan Origination Center The first two characters identify the type of records included in the batch: #D - Full Subsidized/Unsubsidized Origination PF - Full PLUS Origination #E - Origination Change #H – Disbursement The other portions of the Batch ID are year identifier, school code, and batch date
Batched/Print Date	The date the batch was created and printed through the export process within your system
Import Date	The date the batch acknowledgement was imported into your system
Days Elapsed (Batched/Printed to Import)	A calculated field indicating the days elapsed between when the batch was created and when the batch acknowledgement was imported An asterisk (*) prints if the current system date is used for the Import date to calculate days elapsed

# Master Promissory Notes Measurement Tool Report

## **Description**

This report contains detailed records of all active subsidized and unsubsidized loan records in the database and provides Master Promissory Note (MPN) Status for each loan record. MPN listings are printed by student's name and Loan ID(s). Totals are provided for each MPN Status.

In addition, this report monitors the process of receiving signed MPNs from students, updating EDExpress with the date signed, then sending the signed notes with a manifest to the LOC. You determine an acceptable date range and enter this date range as the tolerance or school guideline. The process time is calculated and averaged over the number of records processed for the reporting period then compared to your school's tolerance. It is important to monitor this process carefully since LOC acceptance of the MPN is a part of booking the loan. (Refer to the sample report on page B-8.)

## **Analysis Tips**

Before running this report, make sure all Master Promissory Notes received and signed dates have been entered and acknowledgement batches have been processed. Also, take note of the following after running the report:

- Number of MPNs rejected.  
Is there a consistent error that can be corrected that is causing your notes to reject?
- Number of MPNs ready to be printed.  
Based on these numbers, is the frequency of your print schedules adequate?
- Total number of MPNs printed and signed. Based on these numbers, you can project the number of notes and staff needed for future years.

If the MPN report shows your process is performing outside of the school's tolerances, consider the following:

- How does the volume of MPNs affect your processing?
- What is the most efficient number of MPNs included on a manifest?
- Do your procedures call for the creation of a manifest based on the number of MPNs ready to be sent or based on the time elapsed since the last manifest?

## PLUS Promissory Notes Measurement Tool Report

### **Description**

This report monitors your PLUS Promissory Note process for all active PLUS loan records and provides the promissory note status for each loan record. The PLUS Promissory Note listings are printed by Student's Name, PLUS Borrower's Name and Loan ID. Totals are provided for each PLUS Promissory Note Status.

In addition, this process includes receiving signed promissory notes from PLUS borrowers, updating EDEExpress with the date signed, then sending the signed notes with a manifest to the LOC. You determine an acceptable date range and enter this date range as the tolerance or school guideline. The process time is calculated and averaged over the number of records processed for the reporting period then compared to your school's tolerance. It is important to monitor this process carefully since LOC acceptance of the promissory note is a part of booking the loan.

At the time you select this report from EDEExpress you have the option to print just the exceptions (those outside the tolerance range) on the report, select a date range for the reporting period, print totals only, plus the standard sort and selection criteria. (Refer to the sample report on page B-11.)

### **Analysis Tips**

Take note of the following:

- Number of Rejected PLUS Promissory Notes.

Is there a consistent error that can be corrected that is causing your notes to reject?

- Number of PLUS Promissory Notes ready to be printed.

Based on these numbers, is the frequency of your print schedules adequate?

If the PLUS Promissory Note report shows your process is performing outside of the school's tolerance, consider the following:

- How does the volume of notes affect your processing?
- What is the most efficient number of notes included on a manifest?
- Do your procedures call for creation of a manifest based on the number of notes ready to be sent or based on time elapsed since last manifest?

## Status Measurement Tool Report

### (Formerly the Booked Status Measurement Tool Report)

#### **Description**

This report provides a review of booked and unbooked records in the database within a specified disbursement date range. This information is separated into a booked section and an unbooked section. To be included in this report a loan record and at least one actual disbursement record must exist in the database. This report can be manually compared to the LOC data received in the Direct Loan School Account Statement. Before running this report make sure all booking notification acknowledgements have been imported. (Refer to the sample report on page B-15 and B-16.)

#### **Analysis Tips**

This report may be used to:

- Identify and resolve disbursement records with booking problems.

For example:

- This report lists disbursement records with all three status flags (origination, promissory note, and disbursement). If one or more of these status flags are not in an “A” status, the school needs to research and resolve those items so the disbursement record can book.
- This report can be used to compare EDEExpress Direct Loan data to LOC data received in the Direct Loan School Account Statement.
- Analyze the bottlenecks in processing.

For example, the report indicates a high percentage of records in a B (Batched) status. If a disbursement is in a B (Batched) status, it may mean the school forgot to transmit the batch or import the acknowledgement.

## Direct Loan Volume Measurement Tool Report

### **Description**

This report provides the volume of booked loans on your Direct Loan database by loan type, PLUS, subsidized and unsubsidized. A loan is booked when the LOC has accepted the loan origination record, promissory note, and first disbursement. These loans are identified with an “A” status (Accepted) in the status field for origination, promissory note, and first disbursement as well as the status of booked for the first disbursement. The detail section of the report lists the gross and net loan amounts.

When requesting this report from EDEExpress, you enter the reporting period date range, select a totals only option, use a standard sort, or use a selection option. The reporting period date range is based on the actual disbursement date for any disbursement number of the loan. Before running this report, make sure all DIOD acknowledgements from the LOC have been imported and processed by your system. (Refer to the sample report on page B-19.)

### **Analysis Tips**

This report can be utilized as a Direct Loan status report for end of period accounting and financial aid projections. Information from this report can be used for:

- Comparison with the 30 Day Warning Report from the LOC
- Comparison of volume between Direct Loan types
- Comparison of Direct Loan against other loan programs
- Loan and budget projections for the next fiscal year

## Disbursement Measurement Tool Report

### **Description**

This report monitors the disbursement process by calculating and averaging the actual process time between disbursement dates and the date the actual disbursements are sent in a batch to the LOC. In addition, the days elapsed between the disbursement dates and the booked dates are monitored. The report compares the average number of days elapsed to your school's tolerances (or guidelines). Analysis of these results provides assistance with identifying possible bottlenecks or inefficiencies in your current process.

At the time you select this report from EDExpress, you may enter the beginning and ending dates for the reporting period, select an option to print only those records that exceed the tolerances, or totals only, and the standard sort and selection criteria. You are provided the option to select the Booked Date Range, and when selected, only disbursements booked within that range display on the report. If you want to select records for the report based on a Disbursement Date range use the Disbursement Range query. (Refer to the sample report on page B-23.)

### **Analysis Tips**

If the Disbursement report shows your process is performing outside of the set tolerances, you may want to consider the following:

#### **Exceptions to tolerance from disbursement to batched**

- Exceptions to this tolerance value indicate the LOC is not promptly notified of disbursements.
- For first disbursements, remember delays in posting first disbursements delay the initial contact the LOC makes with your students.
- For all disbursements, the booked status with the LOC may be affected since disbursements on your system would not be reflected on the LOC's system.

#### **Exceptions to tolerance from disbursement to booked**

- Exceptions to this tolerance value indicate disbursements are posted and exported to the LOC but not yet booked at the LOC.
  - Disbursement Booking Notification Acknowledgements may need to be imported.
  - Disbursement records that have been rejected by the LOC may need to be corrected and resent to the LOC.
  - MPN/PLUS Promissory Note may not yet be accepted by the LOC.

## **Disbursement Measurement Tool Report (Continued)**

### **Days elapsed between the disbursement date and booked**

- You should try to keep the days elapsed between the disbursement date and booked date to less than 30 days to ensure you are meeting the 30 day reporting requirement. If the days elapsed are greater than 30 days, you should determine the cause(s). You should also try to determine if there are any trends. The causes may be due to:
  - Promissory Notes not getting manifested or sent timely
  - Promissory Notes rejecting
  - Disbursement records not getting entered timely
  - Disbursements records not getting batched or transmitted timely
  - Disbursements records rejecting and rejects not getting resolved timely
  - Systems problems at the LOC or school
  - The Booking Notification not getting imported (records in this case would have an \* by the Disb/Bked Days Elapsed field indicating that the current system date was used to calculate the days elapsed)

## **Anticipated Disbursements List Report**

### ***Description***

This report provides a review of loans with an anticipated loan amount, with corresponding actual disbursements or with no actual disbursements. The report prints the Loan ID, Student's Name, PLUS Borrower's Name, Anticipated Disbursement and if requested Actual Disbursement Number(s), Types, and Dates. (Refer to the sample report on page B-26 and B-27.)

### ***Analysis Tips***

This report is a valuable tool for viewing a borrower's anticipated disbursements and anticipated disbursement dates versus a borrower's actual disbursement and disbursement date. The Total Net Anticipated Disbursement Amount can assist in making Drawdown Requests.

## **Actual Disbursements List Report**

### ***Description***

This report provides information about actual disbursements. The report prints the Student's Name, PLUS Borrower's Name, Disbursement Batch ID and Batch Number, Current SSN, Disbursement Date, Number, and Action Type, and Net Disbursement Amount. It also displays the Disbursement Status and the Booked Status. The summary totals provide the total net dollar amount for booked disbursements and unbooked disbursements and the total net disbursement amount for each loan type, PLUS, Subsidized and Unsubsidized. (Refer to the sample report on page B-30 and B-31.)

### ***Analysis Tips***

The use of this report assists in monitoring the disbursement and booking activity of loans.

## Loans List Report

### **Description**

This report provides a listing of the details of each loan record on your database including Loan ID, Student's Name, PLUS Borrower's Name, Loan Origination Batch ID, Current SSN, Loan Type, Grade Level, Loan Amount Approved, Loan Amount Requested, Loan/Credit Status and Loan Origination Date. Sort options are available to print by SSN, Loan ID, or Last Name. You can print subtotals and totals or you have the option to print only totals. Also if you select the option to check annual subsidized/unsubsidized loan limits, any subsidized or unsubsidized loan in this category is asterisked with "May Exceed Annual Loan Limits." (Refer to the sample report on page B-34 and B-35.)

### **Analysis Tips**

This report can be utilized to review the status of all loans for a given student and can be useful in determining a student's annual loan limit. The totals on this report allow you to compare the number of loans originated at your schools to the number of actual unduplicated loan borrowers.

## School/LOC Loan Totals List Report

### ***Description***

This report compares the total net disbursement amount at your school to the total net disbursement amount at the Loan Origination Center. (Refer to the sample report on page B-38.)

### ***Analysis Tips***

Analysis of this report identifies discrepancies between actual disbursement records on file at your school versus actual disbursement records accepted at the LOC and may assist in the reconciliation process. This analysis identifies actual disbursement records that are on record at your school and may require further research to determine why these records are not yet accepted at the LOC.
